Project Astra videos

Many of the pages on this doc site include videos that show you how to complete a task for Project Astra. If you're just interested in videos, we've made it easy for you by collecting all of the videos on this single page (kind of like a playlist).

Videos for setting up Google Cloud

The following videos show how to complete set up requirements in Google Cloud before you can discover Kubernetes clusters running in GCP.

Create a service account

Project Astra uses a Google Cloud service account to facilitate Kubernetes application data management on your behalf. The following video shows how to create the service account from the Google Cloud console.

▶ <https://docs.netapp.com/us-en/project-astra/get-started/media/video-create-gcp-service-account.mp4>

(video)

Create a service account key

Project Astra uses a service account key to establish the identity of the service account that you just set up. The following video shows how to create the service account key from the Google Cloud console.

▶ <https://docs.netapp.com/us-en/project-astra/get-started/media/video-create-gcp-service-account->

[key.mp4](#) (video)

Enable APIs

Your project needs permissions to access specific Google Cloud APIs. The following video shows how to enable the APIs from the Google Cloud console.

▶ <https://docs.netapp.com/us-en/project-astra/get-started/media/video-enable-gcp-apis.mp4> (video)

[Click here to view the full list of required APIs.](#)

Videos for using Project Astra

The following videos show how to complete a few common tasks using Project Astra.

Add your first cluster to Project Astra

After you log in to Project Astra, your first step is to add a Kubernetes cluster.

▶ <https://docs.netapp.com/us-en/project-astra/get-started/media/video-manage-cluster.mp4> (video)

Start managing an app

After you add a Kubernetes cluster to Project Astra, go to the Apps page to start managing the apps that run on the cluster.
